

Visualising

Being able to create pictures in your mind to match texts is an important reading skill.

Read the following passage and build a matching picture in your mind.

Plane Trip

I had planned on going for a walk up and down the aisle every so often, but Matthew had the aisle seat. Mum said he could have it because he needed the extra room. He fell asleep before the plane took off. His legs were sprawled out in front of him, blocking my exit and so I was confined to my seat. At least I had packed plenty to keep me busy. Two books, a magazine, music player and a packet of lollies. Every so often I reached over mum and gazed out through the tiny window to the vast ocean below.
