

## Word Problems- Multiplication, by 2 digits [2]

**First** Draw a box around the question.

**Second** Underline key words.

**Third** Circle important numbers.

**Fourth** Solve the problem. Show all your thinking.

1. 43 yachts sailed from the port in a race. Each yacht had 15 people aboard. How many people were in the race?

2. The florist has to make 135 bunches of flowers. Each bunch will need 28 flowers. How many flowers will the florist need altogether?

3. A truck was carrying 24 fridges to the warehouse. Each fridge was worth \$752. What is the total value of the fridges on the truck?

4. A farmer planted saplings each day for 15 days. If he planted 234 saplings each day, how many saplings had he planted in all?

5. A company sold 327 picture frames. If each frame sold for \$14, how much money did they make in total from selling picture frames?
