

## Word Problems- Multiply/Divide, facts to 10 [1]

**First** Draw a box around the question.

**Second** Underline key words.

**Third** Circle important numbers.

**Fourth** Solve the problem. Show all your thinking.

1. A shop ordered 4 boxes of DVDs, each holding the same number of DVDs. In total, the shop received 24 DVDs. How many DVDs were in each box?
2. At the sports carnival, there are 6 teams. Each team has 8 players. How many players are in the competition altogether?
3. The farmer planted a total of 32 apple trees in 8 even rows. How many apple trees were in each row?
4. Hank washes cars. He can wash 5 cars with one bottle of cleaner. How many bottles will he need to wash 45 cars?
5. Danni wants to make 6 bunches of flowers. Each bunch will need 10 flowers. How many flowers will Danni need altogether?
