

## Identifying 3D Shapes

Cut and paste. Match up the shape, the name and the number of sides and vertices.

6 faces 12 edges 8 vertices		square pyramid	
	cone	0 faces 0 edges 0 vertices	2 faces 2 edges 0 vertices
rectangular prism	triangular pyramid	cylinder	
	6 faces 12 edges 8 vertices		5 faces 9 edges 6 vertices
triangular prism		5 faces 8 edges 5 vertices	sphere
1 face 1 edge	4 faces 6 edges 4 vertices	cube
