

# Adding Like Fractions

Add the like fractions. Colour the pizza to help.

Scott ate  $\frac{1}{4}$  Rick ate  $\frac{2}{4}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Nathan ate  $\frac{4}{8}$  Joel ate  $\frac{1}{8}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Mel ate  $\frac{1}{3}$  Kerri ate  $\frac{1}{3}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Anne ate  $\frac{3}{8}$  Yeny ate  $\frac{3}{8}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Molly ate  $\frac{2}{4}$  Brad ate  $\frac{2}{4}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Louise ate  $\frac{1}{6}$  Evie ate  $\frac{2}{6}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Tilly ate  $\frac{1}{3}$  Del ate  $\frac{2}{3}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Jo ate  $\frac{1}{6}$  Nick ate  $\frac{1}{6}$  Sal ate  $\frac{2}{6}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

Pat ate  $\frac{3}{8}$  Nat ate  $\frac{2}{8}$  Pip ate  $\frac{1}{8}$

What fraction of pizza has been eaten altogether?

$$\frac{\square}{\square} + \frac{\square}{\square} + \frac{\square}{\square} = \frac{\square}{\square}$$

# Adding Like Fractions Answers

Add the like fractions. Colour the pizza to help.

Scott ate  $\frac{1}{4}$  Rick ate  $\frac{2}{4}$   
 What fraction of pizza has been eaten altogether?

$$1/4 + 2/4 = 3/4$$

Nathan ate  $\frac{4}{8}$  Joel ate  $\frac{1}{8}$   
 What fraction of pizza has been eaten altogether?

$$4/8 + 1/8 = 5/8$$

Mel ate  $\frac{1}{3}$  Kerri ate  $\frac{1}{3}$   
 What fraction of pizza has been eaten altogether?

$$1/3 + 1/3 = 2/3$$

Anne ate  $\frac{3}{8}$  Yeny ate  $\frac{3}{8}$   
 What fraction of pizza has been eaten altogether?

$$3/8 + 3/8 = 6/8$$

Molly ate  $\frac{2}{4}$  Brad ate  $\frac{2}{4}$   
 What fraction of pizza has been eaten altogether?

$$2/4 + 2/4 = 1 \text{ whole}$$

Louise ate  $\frac{1}{6}$  Evie ate  $\frac{2}{6}$   
 What fraction of pizza has been eaten altogether?

$$1/6 + 2/6 = 3/6$$

Tilly ate  $\frac{1}{3}$  Del ate  $\frac{2}{3}$   
 What fraction of pizza has been eaten altogether?

$$1/3 + 2/3 = 1 \text{ whole}$$

Jo ate  $\frac{1}{6}$  Nick ate  $\frac{1}{6}$  Sal ate  $\frac{2}{6}$   
 What fraction of pizza has been eaten altogether?

$$1/6 + 1/6 + 2/6 = 4/6$$

Pat ate  $\frac{3}{8}$  Nat ate  $\frac{2}{8}$  Pip ate  $\frac{1}{8}$   
 What fraction of pizza has been eaten altogether?

$$3/8 + 2/8 + 1/8 = 6/8$$
