Use the calendar to help you solve the following questions.

1. What day of the week is December 21?
2. Practice for the Carols is on every Wednesday in December. How many practice sessions will there be before the Carols Night?
3. What date is the phone bill due?
4. Molly's party will be four days after her birthday. What day is her party?
5. If today is December 2, how many more school days until the holidays?
6. What day of the week is January 1?
7. One week before Christmas the family go to look at Christmas lights. What date will they look at lights?
8. Dad has ordered a trampoline for delivery. He wants it to be set up and ready to go for Christmas morning. How many days will he have to put it together?
9. Mum needs to change her dentist appointment. Which day in December do you think would be best? Mark it on the calendar and explain why you chose this date.
