

Visualising

Being able to create pictures in your mind to match texts is an important reading skill.

Read the following passage and build a matching picture in your mind.

Africa's Endangered Elephants

The human population in Africa has increased rapidly causing a growing demand for farmland. This demand for land has caused the natural habitat of elephants to shrink. As a result, elephants have less space to roam, meaning they come into contact with humans more frequently. People's fields and crops are often disturbed by these wandering elephants, leading to conflict between humans and elephants. More often than not, it is the elephants who lose this conflict.
