

Visualising

Being able to create pictures in your mind to match texts is an important reading skill.

Read the following passage and build a matching picture in your mind

Tina

Tina noticed everyone was already in their seats. It took a moment, but eventually her eyes adjusted to the darkness and she found what she was looking for. Guided by the strip of lights on either side of the aisle, she began making her way towards Martha.

“Excuse me,” she whispered as she made her way along the aisle to her friend.

“Where have you been?” Tina whispered. Tina held up a large soft drink with two straws. Martha smiled.

Write or draw in the columns to show how your senses were stimulated.
