

Multiplication Puzzles

A multiplication puzzle diagram enclosed in a dashed rectangular border. At the top, there is a 3x7 grid of 21 black dots. To the left of this grid are three circles, each containing 7 colorful dots (red, green, blue, yellow). Below the grid, the equation $3 \times 7 = 21$ is written in large black font. Below that, the equation $7 + 7 + 7$ is written in large black font. The entire diagram is framed by a dashed line with diagonal corner markers.
