

Descriptive Writing 2

Read the following passages. Identify the different senses the author has described in the tables below.

1. Sam jumped out of the fire engine, the sirens still blaring into the night sky. Thick, choking clouds of smoke were rising from the top of the forest. Sam slammed the door shut. He took a swig of cool, fresh water from his canister and then heaved the heavy equipment onto his back. "Hoses!" he shouted to the other firefighter. The air became hotter and the smoke thicker the closer he ran to the fire.

2. Grandad wore an old brown and grey check suit. A shiny golden medal was pinned to his collar. The suit was almost as old as he was and had a faint musty smell. A silver watch moved loosely around his wrist and would jingle as he walked. Grandad's hands were rough and wrinkled. I loved running my fingers over each crease and bump. Grandad said they all told stories from his life.
