Meg

Set C
Card 2

Meg sat on her bed in the corner of her room. Her purple and black striped blanket was pulled up over her raised knees she stared out the window at the trees. The wind was toying with them pushing them back and forth. Meg had closed the old wooden window as best she could, but she could still feel the cold breeze creeping through. This was Meg's favourite place to be on a cold winter's night. Beside her lay a pile of magazines one of which was opened to a crossword.

The Lake

Set C
Card 3

This was Margaret's first trip to the lake. Molly had brought her here, wanting to show Margaret her favourite place to swim. Having just passed the small stream, Molly knew they were now almost there. Not many people visited this lake and so the path was overgrown and only a faint track was visible. Vines hung low overhead and tree branches dangled awkwardly forcing the girls to duck and weave.

Reaching the clearing first Molly ran into the cool water sending the flock of birds flying to a safer distance. Margaret followed closely behind, dropping her bag before she reached the water's edge. Running so fast she toppled over.

Ivory

Set C
Card 6

Ivory is used in ornaments jewellery and even some traditional medicines. Ivory is therefore considered a precious material by some people ivory is found in the tusks of elephants Consequently, poachers kill elephants to take they're tusks. They then sell the tusks on the black market.

Because of the great demand for ivory the number of elephants in Africa and Asia has reduced signifacantly. There is now only a small fraction of the elephants that there once was. Approximately 50,000 elephants remane in Asia, and less than half a million in Africa for this reason many wildlife organisations have been working on ways to stops poachers

Pitcher Plant

Set C
Card 7

The pitcher plant has deeply folded leaves, creating the shape of a cup. The inside walls of the pitcher plant are very slippry causing insects that climb into the plant to slip to the bottem. The opening of the plant has several downward-pointing hairs therefore, it is very difficult for insects clime out. The pitcher plant also has a lid which can cover the opening. Without this lid rainwater would fill the plant and dilute the imporment digestive juice. although pitcher plants are native to North America people all over the world are fascinated by them consequently, many nurseries around the world sell this amazing plant.

Owning a Pet

Set C
Card 9

Looking after a dog is a big responsibility, Jack's mum said.

Especially a puppy, added his dad

I'll take such good care of him. I'll feed him and brush him and take him out for walks, replied jack quickly.

Dad sighed. Do you remember what happend with rupert? Before we took him home you told us the same thing. You stoped cleaning his cage after a few weeks just about every day you needed reminding to refill the seed for the paw little thing

Editing Task Cards: Set C

Answer Card

Card 1: Frogs and Toads

Frogs and toads are both amphibians and have similar bodies. They are both short with wide heads. Both animals have a similar diet. They eat worms, insects, spiders and slugs. Frogs and toads both use their long, sticky tongue to catch their prey.

Frogs legs are longer than those of toads. While both animals can hop, frogs are much better at it. Toads usually walk or take small hops with their shorter legs.

Card 2: Meg

Meg sat on her bed in the corner of her room. Her green and black striped blanket was pulled up over her raised knees. She stared out the window at the trees. The wind was toying with them, pushing them back and forth. Meg had closed the old wooden window as best she could, but she could still feel the cold breeze creeping through. This was her favourite place to be on a cold winter's night. Beside her lay a pile of magazines, one of which was opened to a crossword.

Card 3: The Lake

This was Margaret's first trip to the lake. Molly had brought her here, wanting to show Margaret her favourite place to swim. Having just passed the small stream, Molly knew they were now almost there. Not many people visited this lake and so the path was overgrown and only a faint track was visible. Vines hung low overhead and tree branches dangled awkwardly, forcing the girls to duck and weave.

Reaching the clearing first, Molly ran into the cool water, sending the flock of birds flying to a safer distance. Margaret followed closely behind, dropping her bag before she reached the water's edge. Running so fast, she toppled over, landing at Margaret's feet.

Card 4: Thrill Valley

Thrill Valley is only a short 30-minute drive from the centre of town. For this week only, we are offering entrance for the amazing price of just \$35 per person. Our roller coaster is the scariest ride in the country! It has four loops and reaches speeds of up to 150 kilometres per hour. Your legs will be shaking just watching it! We also have a haunted house which with incredibly real looking ghosts and monsters! For those people who prefer something more relaxing, our wave pool will be just what you need. Feeling hungry? We have 12 different cafes and restaurants to choose from, so there is something for everyone at Thrill Valley.

Card 5: Dragon's Lair

A new video game, Dragon's Lair has been released this week. It has a single player mode as well as online multiplayer.

The game is about exploring castles and rescuing people. The game looks beautiful which makes it easy to get lost in the game's world, Hydle Town.

Dragon's Lair is a long game. There are 42 levels in total. Most of the levels involve very clever puzzles which are fun to solve.

Dragon's Lair is a wonderful game that needs to be in everyone's collection. It is available for download for the cheap price of \$24.95.

Card 6: Ivory

Ivory is used in ornaments, jewellery and even some traditional medicines. Ivory is therefore considered a precious material by some people. Ivory is found in the tusks of elephants. Consequently, poachers kill elephants to take their tusks. They then sell the tusks on the black market.

Because of the great demand for ivory, the number of elephants in Africa and Asia has reduced significantly. There is now only a small fraction of the elephants that there once was. Approximately 50,000 elephants remain in Asia, and less than half a million in Africa. For this reason, many wildlife organisations have been working on ways to stop poachers.

Card 7: Pitcher Plant

The pitcher plant has deeply folded leaves, creating the shape of a cup. The inside walls of the pitcher plant are very slippery, causing insects that climb into the plant to slip to the bottom. The opening of the plant has several downward-pointing hairs. Therefore, it is very difficult for insects to climb out. The pitcher plant also has a lid which can cover the opening. Without this lid, rainwater would fill the plant and dilute the important digestive juice. Although pitcher plants are native to North America, people all over the world are fascinated by them. Consequently, many nurseries around the world sell this amazing plant.

Card 8: At the Movies

Tina noticed everyone was already in their seats. It took a moment, but eventually her eyes adjusted to the darkness and she found what she was looking for. Guided by the strip of lights on either side of the aisle, she began making her way towards the back.

"Excuse me," she whispered as she stepped carefully between the row of seats. "Where have you been?" Martha whispered. Tina held up a large soft drink with two straws. Martha smiled.

Card 9: Owning a Pet

"Looking after a dog is a big responsibility," Jack's mum said.

"Especially a puppy," added his dad.

"I'll take such good care of him. I'll feed him and brush him and take him out for walks," replied Jack quickly.

Dad sighed. "Do you remember what happened with Rupert? Before we took him home you told us the same thing. You stopped cleaning his cage after a few weeks. Just about every day you needed reminding to refill the seed for the poor little thing."
