

Solving 9x Facts

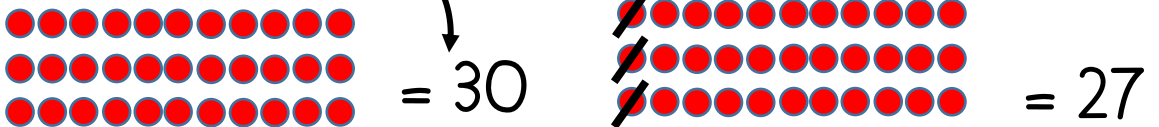

Multiplication Strategies

10x facts can be used to help solve 9x facts.

To solve... 3×9 think... 3×10 then subtract one group of 3

$3 \times 9 = 27$

... 29, 28, 27

$= 30$ $= 27$

Think 6×10 $- 6$

6×9 60 $- 6$ $6 \times 9 = \underline{\quad}$

Think $_ \times 10$ $- 4$

4×9 $_$ $- 4$ $4 \times 9 = \underline{\quad}$

Complete the following 9x facts:

$7 \times 9 = \underline{\quad}$

$5 \times 9 = \underline{\quad}$

$8 \times 9 = \underline{\quad}$

$4 \times 3 = \underline{\quad}$

$2 \times 9 = \underline{\quad}$

$9 \times 6 = \underline{\quad}$

$9 \times 9 = \underline{\quad}$

$9 \times 4 = \underline{\quad}$

$9 \times 3 = \underline{\quad}$

$9 \times 8 = \underline{\quad}$

$9 \times 7 = \underline{\quad}$

$9 \times 10 = \underline{\quad}$

Use this strategy to solve the following. Show how you solved each.

$15 \times 9 = \underline{\quad}$

$24 \times 9 = \underline{\quad}$
