

Double Double Strategy

Multiplication Strategies

To work out $4 \times$ a number, we can double it, and then double it again.

Complete the following $4 \times$ facts using the Double Double strategy.

double double it again

4×6

$4 \times 6 = \underline{\quad}$

double double it again

4×8

$4 \times 8 = \underline{\quad}$

double double it again

4×4

$4 \times 4 = \underline{\quad}$

double double it again

4×5

$4 \times 5 = \underline{\quad}$
