

# Estimating Grams & Kilograms

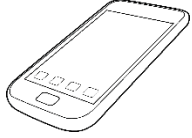

1. Circle the best unit of measurement to describe the weight of each object.

**Sandwich**  
grams kilograms  
(g) (kg)

**Cabinet**  
grams kilograms  
(g) (kg)

**Phone**  
grams kilograms  
(g) (kg)

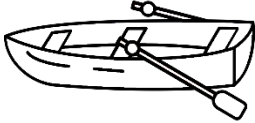

2. Estimate the weight of each object. Circle.

**Chair**  
about... 1 kg  
10 kg  
100 kg

**Dog**  
about... 20 kg  
100 g  
1000 g

**Rowboat**  
about... 5 kg  
700 g  
50 kg

**Paper clip**  
about... 500 g  
1 g  
1 kg

**Drink**  
about... 10 kg  
50 g  
1 kg

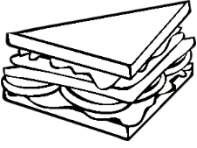

**Apple**  
about... 250 g  
2 kg  
20 g

3. Make a list of objects that weigh less than 1kg and objects that weigh more than 1kg.
