

# Race to 8 000!

The aim of the game is to make a number closest to 8 000 **without going over**.

The first player rolls the dice and chooses a number from that row to begin building their number. A counter is placed under the number that has been chosen (each number can only be used twice).

The next player rolls the dice and has their turn.

The game is over when each of the player's 10 counters have been placed on the game board.

	+1 	+10 	+100 	+1 000 
--	--------	---------	----------	------------

	+2 	+20 	+200 	+2 000 
--	--------	---------	----------	------------

	+3 	+30 	+300 	+3 000 
--	--------	---------	----------	------------

	+4 	+40 	+400 	+4 000 
--	--------	---------	----------	------------

	+5 	+50 	+500 	+5 000 
--	--------	---------	----------	------------

	+6 	+60 	+600 	+6 000 
--	--------	---------	----------	------------
