

The Planets of Our Solar System

There are three facts for each of the planets. Cut and paste to match them!

<p>Saturn</p> 	<p>Jupiter</p> 	<p>Mars</p> 	<p>Earth</p> 
<p>Uranus</p> 	<p>Mercury</p> 	<p>Neptune</p> 	<p>Venus</p> 
Mostly covered by water	The fastest spinning planet	Has the coldest atmosphere of all planets	The closest planet to the sun
Named after the Roman god of the sea	Known as 'The Red Planet'	The second largest planet	Rotates on its side
The hottest planet in our solar system	The farthest planet from the sun	Has a giant storm (The Great Red Spot)	A deep blue colour
The largest planet in our solar system	The smaller planet in our solar system	Has two moons, Phobos and Deimos	Has large rings made of ice and dust
Has 82 moons	The third largest planet	The only known planet to support life	Takes only 88 days to complete its orbit
About the same size as Earth	The third planet from the sun	Has more volcanoes than any other planet	The second smallest planet

The Planets of Our Solar System **Answers**

There are three facts for each of the planets. Cut and paste to match them!

<p>Saturn</p> 	<p>Jupiter</p> 	<p>Mars</p> 	<p>Earth</p> 
<p>Uranus</p> 	<p>Mercury</p> 	<p>Neptune</p> 	<p>Venus</p> 
Mostly covered by water	The fastest spinning planet	Has the coldest atmosphere of all planets	The closest planet to the sun
Named after the Roman god of the sea	Known as 'The Red Planet'	The second largest planet	Rotates on its side
The hottest planet in our solar system	The farthest planet from the sun	Has a giant storm (The Great Red Spot)	A deep blue colour
The largest planet in our solar system	The smaller planet in our solar system	Has two moons, Phobos and Deimos	Has large rings made of ice and dust
Has 82 moons	The third largest planet	The only known planet to support life	Takes only 88 days to complete its orbit
About the same size as Earth	The third planet from the sun	Has more volcanoes than any other planet	The second smallest planet
