

The Weather

Hot and cold.

Sun and rain.

Wind and clouds.

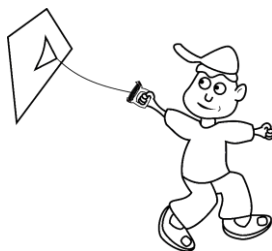

Snow.

All these things are weather.

If it is hot we can swim. This will cool us down. If it is cold we put on warm clothes.

Wind can be cool. Wind can be hot. Wind blows the clouds. On a windy day we can fly a kite.

If it is very cold it can snow. We can make a snowman.

If it is too hot the land gets dry. Water! Water! Where is it? Look! Big black clouds. Rain is on the way. Hooray!

Water cools us. Water makes us clean. We need to drink water to live.

Animals and plants need water to live, too. Too much rain makes a flood. This is not good.

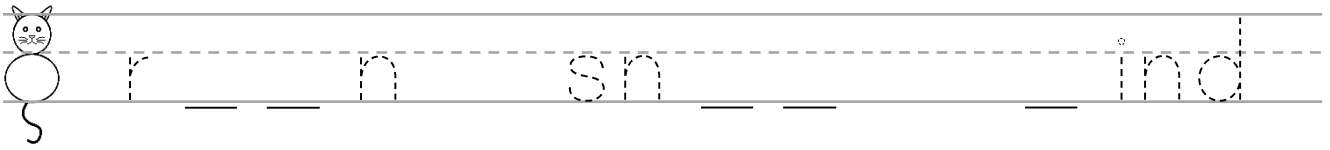

What weather do you like best? Why?

Questions

The Weather – Level 1

1. Finish the weather words.

2. Does wind blow the clouds? Yes or no?

3. What can we do on a windy day?
