

**Features**

Rabbits are mammals. They have long ears, large feet, soft fur and a small tail.

They have strong back legs which lets them hop very well. A rabbit's back legs are so strong, they can also use them to help fight off other animals. Foxes and wolves eat rabbits.

**Food**

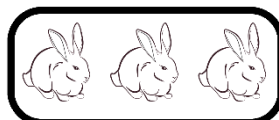

Rabbits like to eat! They are plants eaters. They eat grass, fruits, vegetables and even flowers. Rabbits go looking for their food early in the morning and again in the late evening.

**Where do Rabbits Live?**

Rabbits live in forests, grasslands and meadows. Rabbits can also live in deserts and in very cold places. Most rabbits dig tunnels into the ground to make dens. These help keep rabbits safe. Rabbit dens are called 'warrens'. Rabbits in the wild only live for about 2 years.

**Did you know:**

A rabbit's teeth never stop growing!  
Some people keep rabbits as pets.

## Level 2

# Rabbits

### Task A

1. List 4 things rabbits like to eat.

---

2. What 2 animals eat rabbits?

---

3. When do rabbits go hunting for their food?

---

4. Why do rabbits dig tunnels?

---

5. What is a 'warren'?

---

6. What 2 things do rabbits use their back legs for?

---

### Task B

Write and draw 2 words that rhyme with **den**. Group words from the text by letter count.
