# Counting Puzzle

Count in 10s

Unjumble the counting pattern to reveal the hidden picture!

A grid-based counting puzzle. The top part of the grid shows a cartoon fox on the left and a cartoon rabbit on the right, both partially obscured by vertical dashed lines. Below the grid is a sequence of numbers: 90, 70, 30, 20, 80, 60, 40, 100, 10, 50. The numbers are arranged in a way that suggests a counting pattern that, when unjumbled, reveals the hidden picture.

90	70	30	20	80	60	40	100	10	50
----	----	----	----	----	----	----	-----	----	----
