

Personifying Abstract Nouns

Personifying an abstract noun gives it more power than it would otherwise have.
For example:

1. Rewrite each sentence using personification. Use ideas from below for support.

Human Behaviours & Traits				
pounded	demanded	laughed	choked	whispered
strangled	clawed	crept	hugged	teased
fingers	mouth	eyes	teeth	jaws

- a) 
- b) 
- c) 

2. Choose another abstract noun and write a sentence that personifies it.
