

# Ocean Explorers: Sight Words

A battleships-style game for 2 players.

- You Need:**
- An Ocean Explorers Game Board for each player
  - Sight words list (optional)

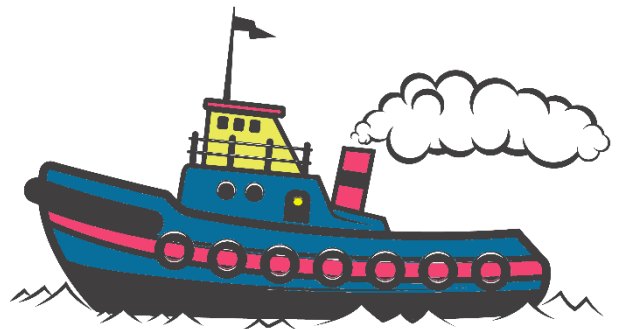

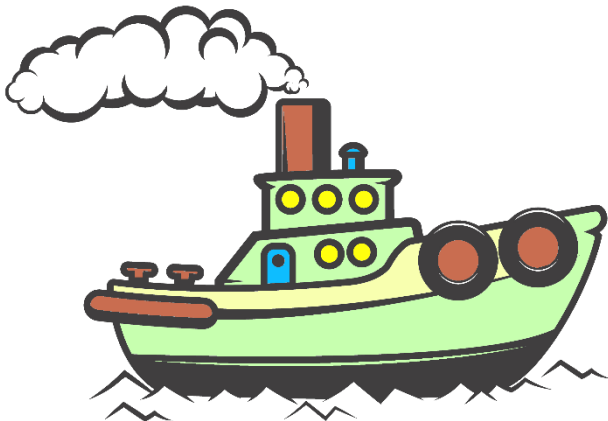

**How to Play:**

1. Each player writes down 4 sight words in the 'My Words' grid on their Game Board (one letter in each box, horizontally or vertically).
2. Player 1 calls a grid coordinate.

*For example, B4*

3. If the grid coordinate called matches the location of a letter on Player 2's board, Player 2 says 'hit' and tells which letter has been 'hit'. Player 1 records the letter they 'hit' on the 'My Partner's Words' grid (or draws a cross for a 'miss').
4. Player 2 has their turn by guessing a grid location.
5. The first player to discover (and read) all sight words wins!
